Editor's Desk
Akshara International Schools

I want to express my deep appreciation for the incredible educational journey that my child is experiencing at AIS, LB-Nagar. From the beginning, it was evident that AIS is not just a school but a true community of dedicated educators, passionate students, and involved parents.

I must also mention the open lines of communication that AIS maintains with parents. The regular updates, parent-teacher conferences, and opportunities to get involved in school activities have made me feel like an active partner in my child's education journey. Evidently, the school values parents' input and strives to create a collaborative atmosphere. In conclusion, I extend my gratitude to Teachers, Admins, and the entire staff for creating an educational haven where children learn, flourish, and find their passions. My family is proud to be a part of the AIS community, and we look forward to many more years of growth and success!

IMAGINARY NIGHT

Beneath the moon's shining light
A small special story takes flight
In movie's world, a magic place
Where love and wonder embrace
Clouds pour rain from up so high,
As two droplets meet beneath the sky
Their feelings bloom a bit like love
As if they're sent from the skies above
With magic all around them.
They dance in joy as they are the gem
In this real world, dreams come true,
And love's enchantment starts to brew
Like butterflies their hearts take flight
Their eyes meet in the soft moonlight
It sounds like a spell, they are both under
A tale of romance, full of wonder
Though it's just a movie's tale
Makes us smile and heart to sail.

शिक्षक पर कविता

मेरे शिक्षक बहुत बेचारे
बच्चों की हरकतों के मारे
हैं लेकिन बहुत ही प्यारे
हम सब का जीवन संवारे ।

कभी मन की पीड़ा हर लेते
कभी विश्वास मन में भर देते
टूटे सारे बंधन भय के
सिर उठा कर चलना सिखाते
हमको हमारी पहचान कराते
शिक्षक ही पुस्तक पढ़ाते ।

अच्छे शिक्षक ये हमारे
हम सब को रोज पढ़ाते
शैतानी करने पर वो डांटते
इसलिए वो हमको भाते ।

This school's impact on young lives is nothing short of transformative. Kudos to the entire Akshara International School community for their relentless pursuit.

From the moment I set foot on the campus, I was overwhelmed by the palpable atmosphere of dedication and excellence that every corner of this institution resonates.

LAPTOP IMPORT BAN.
What's the govt. up to?

The government has recently introduced new guidelines regarding the import of hardware tech such as laptops, personal computers, tablets, and other types of computers, effective by November. As the IT sector questions the judgment of the Indian government, we the common people need to understand "why has this ban occurred?".

WHY?
There are three main reasons:

1. Security concerns: India suspects these computers to have security issues. Data theft is a critical crime, and imports like these are what make it happen.

2. Decreasing dependency: India is a vast country with diverse professionals; thus, it would only make sense for our independence for electronics, especially in countries like China.

3. Stimulating domestic manufacture: With India's potential in the manufacturing sector, this ban will act as support for India to further establish itself in the manufacture of electronics

WHAT WILL THE EFFECTS BE?
India will no longer be able to receive mass shipments of the mentioned products. And there is only one exception, and it shall only apply if a consignment only has up to 20 units, and will only be used for R&D, benchmarking, assessment, repair and re-export, or product development. When the intended use has been met, the items are either rendered obsolete or re-exported.

The import of one laptop, tablet, all-in-one personal computer, or ultra-small form factor computer, including those purchased from e-commerce sites via post or courier, is exempt from import licensing.

When we come on to the topic of how this can affect tech giants such as Apple, Samsung, etc., we understand better why this was implemented. India has quite a large population, the tech giants are well aware not to miss out on such a huge market, this will have them give thought to opening a manufacturing centre right here in India.

EDUCATION

Education is a need It grows like a seed;
You need nutrition to feed All are welcome to its abode;
But some selfishness takes it for a ride
Pushing the needy aside;
Humans with dedication are our pride!
As nation needs to stride. In the surplus,
soaring skies;
Never our aspiration cries
Because even the winds and waves;
For our welfare craves
The tyranny of haves or have-nots;
Should one twilight be caught!
Let us the least counted
Be seen mounted;
Let us see that the fruit of education;
Be reachable to the entire nation
These tender wards of tomorrow;
Wipe out the nation's sorrow
Aspiring to do my best;
And put the evils of society to rest
I look to make the change;
Took up the wand of mentor's range!
Each day I plant a seed
Almighty, give me strength to pull out the weed;
Let me mould a generation without greed
On the way I accelerate my speed;
And I meet every student's need
I may not be in education an ocean;
But the ocean is incomplete without my dedication.

समय का सदुपयोग

समय हर एक व्यक्ति के जीवन का अमूल्य धन है और यह धन हर एक व्यक्ति को प्राप्त है। समय को जैसे से अधिक मूल्यवान माना जाता है। क्योंकि हम जैसे खर्च करते हैं और कमाते हैं, लेकिन हम अपने खोए हुए समय को वापस नहीं पा सकते।

विद्यार्थी जीवन में समय का सही उपयोग किया जाए तो जीवन में सफलता अवश्य प्राप्त होता है। विद्यार्थियों को अपना हर कार्य निर्धारित समय पर या उसके पूर्व ही समाप्त कर लेना चाहिए। खाली समय का भी ऐसा उपयोग करना चाहिए कि वह भी उपयोगी सिद्ध हो। समय अनमोल है, उसका कदर करो।
